

A close-up photograph of pink cherry blossoms on dark, thin branches. The background is a soft, out-of-focus light pink and white, suggesting a bright, sunny day. The text is overlaid on the right side of the image.

# College and University Health Learning Collaborative

---

SYLVIE RATELLE STD/HIV PREVENTION  
CENTER OF NEW ENGLAND

---

# What is a Learning Collaborative?

- A pedagogical approach to learning that is focused on knowledge sharing via peer collaboration
  - Based in:
    - Cognitive theory: active learning and information processing
    - Motivational theory: all participants are responsible for information sharing and teaching
    - Social theory: cooperation and dialogue

Goal: 50-minute learning sessions that focus on the sharing of knowledge and best practices between participants, facilitated by Ratelle faculty

---

# Format of Learning Collaborative Sessions

- 1. Introduction of topic (10-15 minutes)
- 2. Participant sharing of institutional policies and practices related to topic (15-20 minutes)
- 3. Question and answer period (15 minutes)
- 4. Wrap-up and identification of future topic (10 minutes)
